**CALIFICACIÓN:**

Lee el texto y contesta a las preguntas que se te formulan a continuación:

### **The Sustainable Development Goals**

Climate changes are one of the world's biggest challenges that we are facing today. Most of the climate researchers agree on the fact that the climate is changing rapidly, as a result of human activity.

The Sustainable Development Goals are the world's work agenda which aims to end poverty, protect the planet and ensure prosperity for all within 2030. The 17 sustainable development goals (SDGs) to transform our world are: 1 no poverty, 2 zero hunger, 3 good health and well-being, 4 quality education, 5 gender equality, 6 clean water and sanitation, 7 affordable and clean energy, 8 decent work and economic growth, 9 industry, innovation and infrastructure, 10 reduced inequality, 11 sustainable cities and communities, 12 responsible consumption and production, 13 climate action, 14 life below water, 15 life on land, 16 peace and justice strong institutions and 17 partnerships to achieve the goals. The world leaders have decided to take urgent action on climate change to limit global warming to less than two degrees Celsius, compared from 1850 to 2100. This refers to the expression "*2 degrees Celsius limit*". However, in the Paris Agreement the world leaders have even pledged that they will try to limit the rise of the average temperature to no more than 1,5 degrees.

To reach the goal of maximum 1,5 degrees, or worst case two degrees, every country, including yours, must limit their greenhouse gas emissions. Every country must take actions locally, nationally and globally to achieve the goal. How is your municipality plan to protect the environment? Is it ambitious enough to contribute to a sustainable development in your local community, in your country and globally? How is the plan affecting and influencing other areas of the community, for example transportation, health services, education, etc.? We must be aware that this is a common issue and that we should take part of it. Compromise is the only way to turn the planet into a better place to live in the future.

**PRUEBA DE ACCESO A LOS CICLOS  
FORMATIVOS DE GRADO SUPERIOR**

*Resolución de 17 de marzo de 2021*

(BOC N° 62. Jueves 25 de marzo de 2021 – 1573)

**1. How many sustainable goals are there?**

- a) 16 and other measures.
- b) 17 and other measures.
- c) 17.

**2. According to the text, what do researchers think about climate?**

- a) They think that the climate is not changing rapidly, as a result of human activity.
- b) They think that the climate is changing rapidly, as a result of human activity.
- c) They think that the climate won't change.

**3. What are the aims of the Sustainable Development Goals?**

- a) To end poverty, protect the planet and ensure prosperity for all within 2030.
- b) To increase global warming.
- c) To increase the rise of the average temperature.

**4. What is the meaning of the expression “2 degrees Celsius limit”?**

- a) To limit global warming to less than two degrees Celsius.
- b) To increase global warming to more than two degrees Celsius.
- c) To increase global warming to more than three degrees Celsius.

**5. Every country must take actions...**

- a) Only globally to achieve the goal.
- b) Locally, nationally and globally to achieve the goal.
- c) Locally better than globally.

**6. To reach the goal of maximum 1,5 degrees, every country must...**

- a) increase their greenhouse gas emissions.
- b) limit their greenhouse gas emissions.
- c) expand their greenhouse gas emissions.

**7. Choose the CORRECT question:**

- a) Has the world leaders decided to take urgent action?
- b) Have the world leaders decide to take urgent action?
- c) Have the world leaders decided to take urgent action?

**8. Choose the CORRECT negative sentence:**

- a) Every country don't must take actions.
- b) Every country must not take actions.
- c) Every country doesn't must take actions.

**9. Choose the CORRECT negative sentence:**

- a) The Sustainable Development Goals aren't the world's work agenda.
- b) The Sustainable Development Goals isn't the world's work agenda.
- c) The Sustainable Development Goals doesn't are the world's work agenda.

**10. Choose the CORRECT question:**

- a) They will try to limit the rise of the average temperature?
- b) Will they try to limit the rise of the average temperature?
- c) Do they will try to limit the rise of the average temperature?
